Manual / UI Tests

These tests were performed manually by the developer/tester to validate UI flows, browser behaviour, and integration points not covered by automated tests.

10	10	0	0
Total	Passed	Failed	Skipped

ID	Test Name	Steps	Expected	Result
M-001	Login with valid credentials	Navigate to /login, enter valid doctor email and password, click Login	Redirect to /dashboard with user name visible in header	PASS
M-002	Login with invalid credentials	Navigate to /login, enter wrong password, click Login	Error message displayed on login page, no redirect	PASS
M-003	Create a new consultation	Click 'New Consultation', select patient, enter chief complaint, submit	Redirect to consultation detail page; status = RECORDING	PASS
M-004	Consultation list shows patient names	Navigate to /consultations	Each row shows patient full name (not raw ID)	PASS
M-005	Generate clinical report	Open review page for a consultation, click 'Generate Report'	Spinner then report markdown rendered on page	PASS
M-006	Download PDF report	After generating report, click 'Download PDF'	Browser downloads a PDF file named report__.pdf	PASS
M-007	Transcript speaker diarization display	Record/upload transcript, normalise, open review page	Transcript shown with DOCTOR (blue) and PATIENT (green) turns	PASS
M-008	Patient detail shows age	Navigate to /patients/	Age calculated from date_of_birth and displayed correctly	PASS
M-009	Approve consultation and receive prescription	Generate report, click Approve on review page	Prescription created; status changes to APPROVED	PASS
M-010	Logout clears session cookie	Click Logout from dashboard	Redirected to /login; accessing /dashboard returns 401	PASS
